

## YGE vbar adapter cable

- Adapter for using the YGE controller with vbar-telemetry
- RPM-Output connection for using the vbar-governor
- Length about 10cm

### Warranty:

Our warranty conditions are based on the European Statutory Warranty. Any other requirements are excluded. That applies in particular to requirements for damage or injuries compensation due to malfunction or failure. For damages to property or personal injuries and their consequences, which developed from our supply or craftsmanship, we do not take any liability, since we have no control on handling and use.
